Intellij Hot Keys

Video on tips and tricks

https://resources.jetbrains.com/storage/products/intellij-idea/docs/IntelliJIDEA_ReferenceCard.pdf

Some of the commands I found useful...

```
shift + cmd + a
#Look up a keyboard command
version control > log (useful for looking at branches)
Alt + shift + click around screen
#multi-selection
alt + cmd + I
#format file properly
shift + cmd + enter
#auto-complete
cmd + g
#toggle through instances of that word in the file
ctrl + cmd + g
#find all instances of a word in a file
cmd + shift + <- OR ->
#ResizeWindows
Alt (option) + up
shift + cmd + v
#Get entire clipboard history
shift + shift
cmd + k (commit from intellij)
cmd + shift + a <— search for almost anything
```

hover over method/class/whatever: F1

cmd + alt + I #styling

hover over class you want a unit test for, press Alt + Enter

cmd + e. recent files

turn off tabs, cmd +,

cmd + [OR]

#navigate to where you previously where

cmd + 1

#get to project window

debugging

```
🗓 seqalto [~/seqalto] - .../engine/coordination/src/test/java/com/bina/seqalto/engine/coordination/executor/JobConfigTest.java [engine-coordination]
